NEW ACCU-DART Documentation for Sage 300 ERP

ACCU-DART for AccountMate Webinar Video

Event Reporter: TPAC

Coming Soon: ACCU-DART for Accountmate 9.1

Coming Soon: ACCU-DART for Sage 300 ERP 2014

NEW ACCU-DART Documentation for Sage 300 ERP
Effective 04-08-14

As part of our continuing effort to provide support to our resellers and their clients, we are pleased to offer new user documentation for Sage 300 ERP users.

Our completely revised documentation provides details on implementation, hardware configuration, ACCU-DART settings, as well as specifics on each ACCU-DART module currently available for Sage 300 ERP users. This is an essential tool for any reseller or end user in need of an ACCU-DART reference manual.

You can access the in the reseller-only section of our website.

We greatly appreciate your feedback: if you have suggestions for further improvements to our documentation, please feel free to contact us at info@accu-dart.com

ACCU-DART for AccountMate - Webinar Video

We recently participated in a wonderful web demo hosted by AccountMate. It was a great opportunity to show AccountMate Resellers (and their clients) how ACCU-DART can benefit their business.

* Discover how updating inventory in real-time can increase efficiencies
* Learn how shipping the right goods, to the right customer, the first time will save your clients money
* Find out how you can improve your clients' warehouse operations
* See how easy it is to track crucial serial and lot number information

We are very grateful to AccountMate for recording the webinar and making it available to view on their website. If you were unable to attend the web demo, we encourage you to visit HERE to watch the presentation.

TPAC Conference
February 23-26, 2014
Vancouver, BC
www.tpac.biz

We were thrilled to once again participate in the annual Third-Party Advantage Conference (TPAC) in Burnaby, BC in February 2014.

As always this was a great event to connect with Sage 300 ERP resellers and other third-party providers. We were happy to see so many familiar faces, and make many new connections.

Thank you to everyone who came out to meet us at the ACCU-DART booth - we hope to see you again next year.

Visit www.tpac.biz for more information.

COMING SOON: ACCU-DART for AccountMate 9.1

In our continued commitment to our resellers, ACCU-DART will soon be compatible with the latest AccountMate software release.

Development for ACCU-DART for AccountMate v 9.1 is now complete, and the software is now in the testing phase.

For more information on our upcoming release, please contact info@accu-dart.com

COMING SOON: ACCU-DART for Sage 300 ERP 2014

Providing an inventory management solution works with the latest Sage 300 ERP release is a high priority for us; we are hard at work to ensure that ACCU-DART is compatible with the newest platform version.

The new ACCU-DART release for Sage 300 ERP 2014 will be available soon.

For more information about ACCU-DART for Sage 300 ERP 2014, please contact info@accu-dart.com.
