ACCU-DART for Windows Mobile Now Available!

ACCU-DART Pricing Packages Offer

Make it easy for your clients and prospects to get control of their inventory with our special pricing package offer!

For a limited time, ACCU-DART resellers can take advantage of our pricing package offers. Based on feedback from our resellers, we have put together 2 pricing packages that represent our most popular ACCU-DART modules, grouped together to offer the greatest value:

	Regular List Price	Package Price
Entry-Level Package 1 User Ship Sales Order	$3,000 + Annual Support + Hardware	$2,500 + Annual Support + Hardware **Save $500!**
"Typical Set-up" Package 3 Users Ship Sales Order Receive Purchase Order Physical Inventory Count	$8,500 + Annual Support + Hardware	$7,000 + Annual Support + Hardware **Save $1,500!**

For more information about our pricing packages, please visit the reseller-only section of our website, or email justin@accu-dart.com.

Act Now! Prices are only valid until August 31st!

Upcoming Events: TPAC 2010

The Third-Party Advantage Conference (TPAC) is fast approaching! We are excited to be participating again this year both as an exhibitor and as a presenter.

Please visit us at TPAC on August 29-31 in Vancouver, BC to meet the ACCU-DART team and see ACCU-DART in Action!

This conference is the ideal place for resellers to learn more about third-party products that extend the functionality of Sage Accpac ERP.

To register for TPAC, please download this form. For more information, visit www.tpac.biz.

In Focus: ACCU-DART FAQ

With our new ACCU-DART website design, we have upgraded and added many features that will benefit our resellers. *One of the most exciting new features is the FAQ section*, added to the reseller-only area of our site (www.accu-dart.com).

If you have a specific question about ACCU-DART, one that can't be answered through our manual, visit the FAQ section of our site: this area features questions that many of our resellers have also asked, and that may make your implementation/problem-solving easier. *This section is available exclusively to our resellers*: simply go to the "existing resellers" page, enter your login information and navigate to the FAQ on your left.

Don't see your question in our list? Please give us a call at 1-888-324-7877. We are happy to provide 24/7 on-call support to our resellers. We are also continuously updating our FAQ with new questions and answers, so feel free to let us know if there is information you think should be added.

At ACCU-DART, our priority is to make it easier for our resellers to sell and support our product to their clients and prospects. We always welcome suggestions and comments on how to improve our services.

Event Reporter: Sage Insights 2010

The Sage Insights Conference was a great success!

As exhibitors, the ACCU-DART had the opportunity to touch base with many of our resellers, and meet other Sage Business Partners who are interested in inventory management for their clients.

Visitors to our booth got a first-hand look at the new ACCU-DART for Windows Mobile, and learned about the latest ACCU-DART developments, including bin tracking for Sage Accpac.

For those who did not get the opportunity to stop by, please feel free to contact us at info@accu-dart.com to see ACCU-DART in Action!

ACCU-DART for Windows Mobile Now Available!

We are thrilled to announce that ACCU-DART for *Windows Mobile is now available for Sage Accpac ERP.*

ACCU-DART for Windows Mobile opens up a world of options for the hardware best-suited to your clients' business. In addition to the Worth Data radio-frequency handheld devices, ACCU-DART is now compatible with the Motorola/Symbol brand scanners, including the MC 9090 radio-frequency devices.

With Windows Mobile, *ACCU-DART clients have the freedom to choose the best hardware solutions to suit their business*. There are virtually limitless options to choose from. As such, we strongly encourage our resellers to extensively research the options available for each of their clients. As always, you know your clients' best, we are not the experts when it comes to picking the right hardware solution for their individual needs.

For more information on ACCU-DART for Windows Mobile, please contact justin@accu-dart.com.
